

Implementation of BARRICADE Software is simple and fully supported

**BARRICADE Software stands behind every customer.**

Our simple, ten-step process outlines just how easy it is to have BARRICADES start working for you.

1. Complete a BARRICADE Software questionnaire
2. Review and quote any of your special requirements
3. Purchase BARRICADE Software
4. Install BARRICADE Software
5. Review System procedures using the test database
6. Begin building your database (company information, clients, material, transactions)
7. Prior to going live (enter job numbers, job inventory, unbilled transactions)
8. Install the interface to your accounting system
9. Map General Ledger accounts
10. Live Operation!

BARRICADE staff is available by telephone to support you at any step.

BARRICADE Software provides two basic invoicing methods

### Spot Invoicing

- For short-term jobs that are billed complete
- Interim billing or Final billing: these invoicing methods are similar, except Interim billing printed on the invoice
- With Final Billing, BARRICADE Software automatically checks for open material left on the job. If there is material not yet picked up, a material list is printed and Final Billing is not allowed.

### Progressive Invoicing

- Invoice just a selection of jobs or all jobs on a regular basis
- The operator simply selects which day to bill through such as 2-29-12. All the material will be billed from the start date through 2-29-12 and new material transactions will automatically be created for that job starting 3-1-12.

BARRICADE Software makes entering a delivery transaction easy

### Delivery Transaction Screen

- Automatically recognizes a delivery type transaction and displays a material screen. The operator may then choose the material and quantity delivered.
- The quantity field is automatically populated but may be overridden. All material is shown as started on the day of the transaction.

The screenshot shows the 'WO Editor' window in the Barricade RM software. The window is divided into several sections for data entry:

- Work Order:** Code: 7897, Bill Date: 11/08/2010, Priority: Normal, Type: Rental Delivery.
- Job / Customer:** Job Code: 1507, Job Title: Golder delivery, Customer: (blank), Order By: Mark, 690-4880.
- Schedule:** Schedule: 11/08/2010 12:00 AM, Details: on site 8:00 am.
- Delivery / Instructions:** Dispatcher: Gerrit, Assign To: Chuck.

The 'Delivery Items' table is displayed below, showing a list of materials with their quantities and rates. The total quantity is 52, and the total weight is 0.

Item	Name	Qty	Rate	Total Weight	Note DL
U-BAR-NP	Used No Parking Barricade	10	0.55	0	
U-TF1230	Used TF1230 Stand	4	1.75	0	
U-WD-116-8	Used 1PanelHwyBar w/Arrow	4	2.50	0	
U-WD-A-9	Used Chevron (60x75)	4	1.58	0	
U18ALUMSS	Used 18" Alum Stop/Slow	1	0.50	0	
UWD101=75	Used Const Ahead (75x75)	2	1.96	0	
UWDA23R=75	Used Rd Narrows Rt (75x75)	2	1.96	0	
*					
		Sum = 52		Sum = 0	

At the bottom of the window, there is a 'CONFIRMED' checkbox, a 'Save' button, a 'Refresh' button, and a 'Close' button.

BARRICADE Software simplifies the Pickup Transaction process

Here's how easy it is!

- Automatically recognizes a pickup transaction and displays all materials out on a given job
- The operator simply enters the amount of material returned and the stop date for that amount is created
- If there are multiple entries of the same material due to multiple deliveries, a single entry of the total cleared amount will update all entries affected... starting with the oldest delivery first.

The screenshot shows the Barricade RM software interface. The main window is titled "Barricade RM - Barricade Software Demo" and has a menu bar with "Home", "Operations", "Reports", "Company Settings", "User Settings", "Admin Tools", and "Help". Below the menu bar is a toolbar with icons for "Customer", "Job", "Inventory", "Work Order", "Invoicing", "Dispatch", and "Schedule".

The "WO Editor" window is open, showing the following fields:

- Work Order:** Code: 7836, Bill Date: 11/01/2010, Priority: Normal, Type: Rental Pickup
- Job / Customer:** Job Code: 220, Job Title: Border \_ 7663 - Ft Sask, Customer: (empty), Order By: < Name >, < Phone >
- Schedule:** Schedule: 11/01/2010 12:00 AM
- Delivery / Instructions:** Dispatcher: (empty), Assign To: (empty), < Instructions >

The "Pickup Items" table is displayed below the form fields:

Item Code	Name	Qty	Pk	Pk Dmg	Pk Mis
R-WAPB400	Channelizer Barrel Rental	5	5	0	0
RDELINEAT	Delineator Rental	12	12	0	0
U-HARDWARE	Used Hardware Sets	30	30	0	0
U-TF1230	Used TF1230 Stand	7	7	0	0
U-UCHAN3	Used 3' U-Channel Post	20	20	0	0
U-UCHAN8	Used 8' U-Channel Post	4	4	0	0
U-WD-154	Used End Const (120x60)	6	6	0	0
URA2=75	Used Yield (75x75x75)	3	3	0	0
USIGNCOV75	Used Diam. Sign Cover (75x75)	2	2	0	0
UWAPC42HI	Used Channelizer Cone	38	38	0	0
UWD101=75	Used Const Ahead (75x75)	8	8	0	0

At the bottom of the "WO Editor" window, there are buttons for "Save", "Refresh", and "Close". A "CONFIRMED" checkbox is checked.

BARRICADE Software allows you see materials and billable dollars per job

**Can you answer these questions?  
BARRICADE Software can!**

- How much material is on a job and what is the daily rate?
- When was the material delivered to a job?
- What work orders were assigned to a job?
- How much have I earned since the last billing?

With the click of a mouse, BARRICADE Software provides you the ability to drill in and see all material and total billable dollars per job.

The screenshot shows the BARRICADE RM software interface. The main window is titled "Billable Jobs" and displays a list of materials and their associated costs for a specific job. The job details are as follows:

Job No	Code	Customer	Title	Status
220	220			Open

The main table lists the materials and their associated costs:

Name	Start	Stop	Days	Qty	Rate	Total
#01-002 Trailer Arrowboard	11/01/2010	11/08/2010	8	1	57.00	456.00

BARRICADE Software makes tracking your inventory easy

BARRICADE Software provides you an easy way to track your inventory at any time.

- Where is my inventory?
- How much do I have on hand?

BARRICADE Software's Inventory by Job View gives you the ability to check on hand vs. allocated inventory - powerful features to streamline your inventory tracking.

The screenshot displays the Barricade RM software interface. The top navigation bar includes Home, Operations, Reports, Company Settings, User Settings, Admin Tools, and Help. Below this is a toolbar with icons for Customer, Job, Inventory, Work Order, Invoicing, Dispatch, and Schedule. The main window is divided into several sections:

- Code List:** A list of inventory items with columns for Code and Name. The selected item is UWD104=90, UsedBarricadeA.
- General Info:** Fields for Code (UWD104=90), Name (UsedBarricadeAhead(90x90)), Description (Dimensions: 90cm X 90cm, Area: 0.81, DG), Alt. Item (WD104=90), Weight (0), and User1/2.
- Billing:** Fields for Daily Rate (2.84), Sale Price (0.00), Period Bill (None), and Taxable (checked).
- Period Bill Flexible:** A table for Period 1, 2, and 3 with columns for Period Days and Daily Rate.
- Qty:** Fields for Total (7), Out / Dmg (6 / 1), and Available (0).
- Classification:** Fields for Category (8), Rnt / Sal (checked), and GL Code (REV).
- Vendor / Cost:** Fields for Vendor, P. Cost (0.00), and R. Cost (0.00).
- Outstanding Items:** A table showing job numbers, DLWO codes, quantities, rates, and damages.

Job No	DLWO Code	Qty	Rate	Damage	Note DL
1278	6362	3	2.84	0	
1375	7118	2	2.84	0	
1409	7329	1	2.84	0	

Buttons at the bottom include New (F5), Delete, Save, Refresh, and Close.

BARRICADE Software provides you with greater job visibility

With BARRICADE Software, you can easily track open jobs by client.

See all open jobs for a client with last invoice and billing information Key pieces of information are at your fingertips in one easy-to-use screen: last service, last minimum, last rental, and more.

The screenshot shows the BARRICADE RM software interface. The top navigation bar includes Home, Operations, Reports, Company Settings, User Settings, Admin Tools, and Help. Below this is a toolbar with icons for Customer, Job, Inventory, Work Order, Invoicing, Dispatch, and Schedule. The main window is divided into several sections:

- Customer List:** A list of customers on the left, with 'ABLE HOUSE MOVING LTD' selected.
- General Info:** Fields for Code (4), Name (ABLE MOVING), Address1, Address2 (Compartment 243), City, State / Zip, Phone, Fax (0), and Email.
- Billing:** Method (Daily Prices) and Srv Charge (0).
- Tax Schedules:** Service (GST), Sale (GST), and Rental (GST).
- GL Codes:** Service (REV), Sale (REV), and Rental (REV).
- Jobs Table:** A table listing jobs for the selected customer.
 

Job No	Job Title	Status	Create	Billing Method
900	Able House customer PU	Open	11/07/2010...	Daily Prices
909	Able House cust PU	Final Billed	11/07/2010...	Daily Prices
929	Able custPU	Final Billed	11/07/2010...	Daily Prices
932	Able custPU	Open	11/07/2010...	Daily Prices
938	Able cust PU	Final Billed	11/07/2010...	Daily Prices
953	Able cust PU	Final Billed	11/07/2010...	Daily Prices
989	Able missing no parking b...	Open	11/07/2010...	Daily Prices

At the bottom, there are buttons for 'New (F5)', 'Delete', 'Save', 'Refresh', and 'Close'. The 'Jobs' tab is currently selected in the bottom navigation bar.
